

**LIVE BUILD MOSAICS® - MOSAIC-IN-A-BOX** the #1 photo mosaic wall experience  
PRODUCT GUIDE

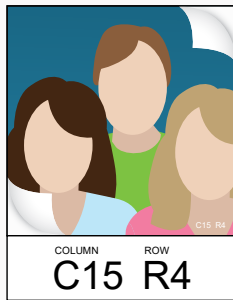

## Mosaic-in-a-Box

Our "Mosaic-in-a-box" Live Build Mosaics are an alternative to the full Live Print Mosaic System and is a popular option at a much reduced cost (starting at \$3,800).

It has all of the great engagement and building excitement of a Live Print Mosaic, just minus the live photos and live printing. Your guests still build the mosaic live!

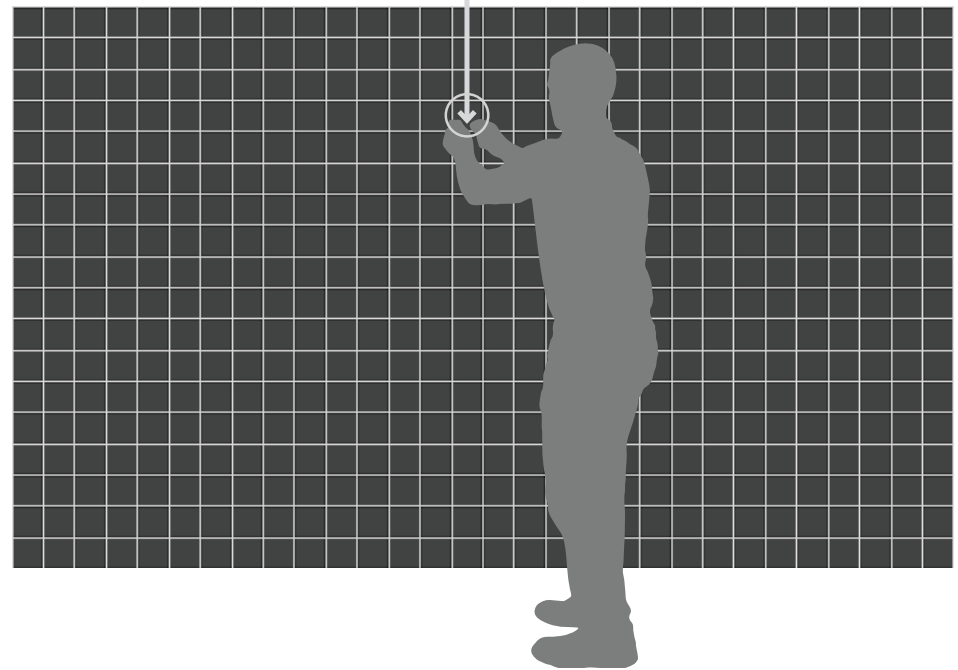

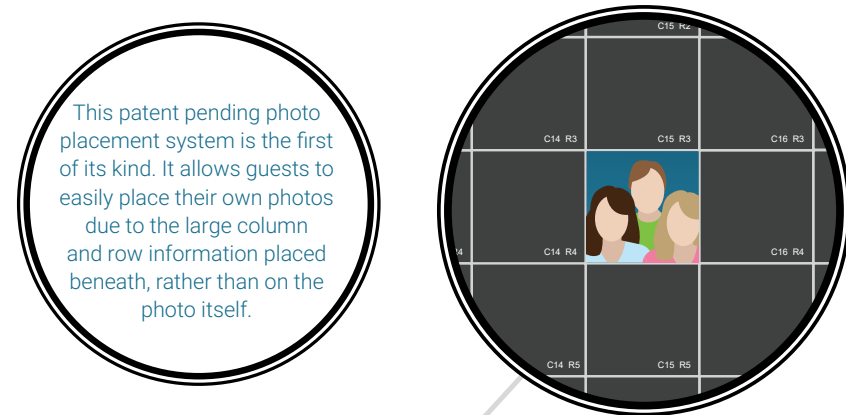

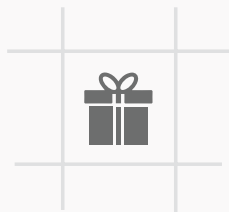

Photos are collected, gathered, or sent over ahead of time through a number of different options. The gator board grid and adhesive photos are printed ahead of time, shipped and ready to go for your event. Guest either place their own photo or find an interesting photo to place on the mosaic wall.

For Placement in Mosaic

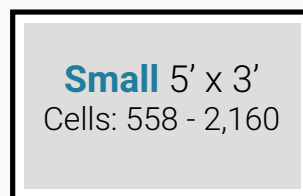

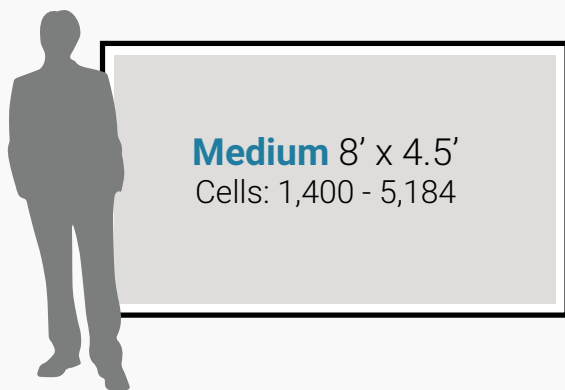

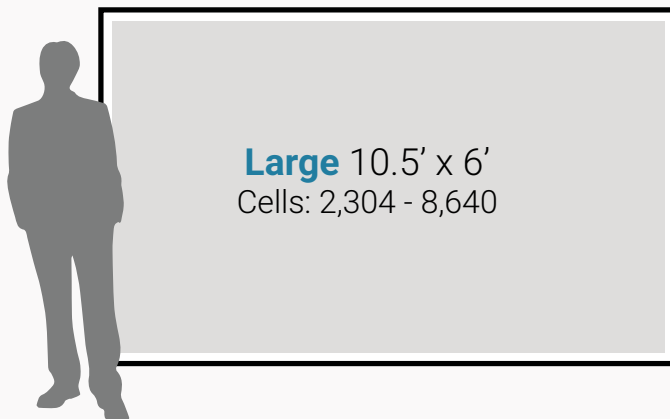

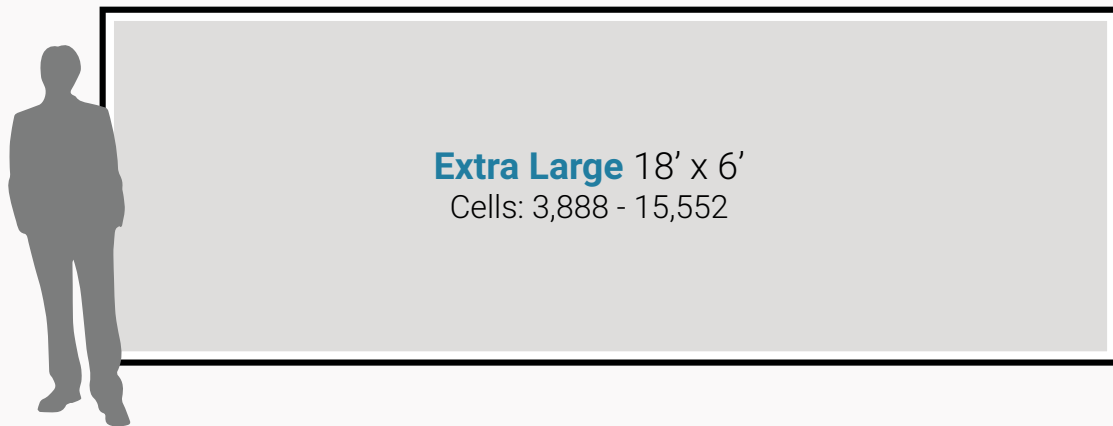

## Prize Locations

Prize locations can be a fun addition for this option. To encourage participation, prize locations can be added by placing prize stickers to the grid before the event.

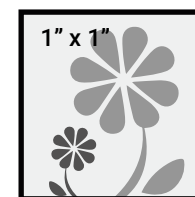

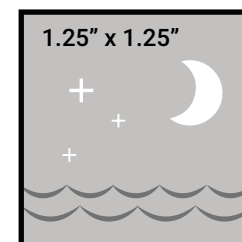

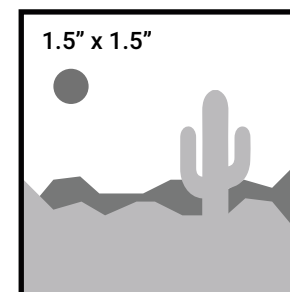

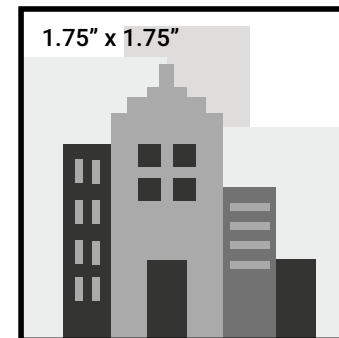

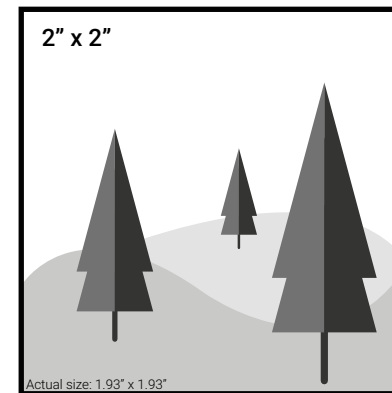

## MOSAIC SIZE

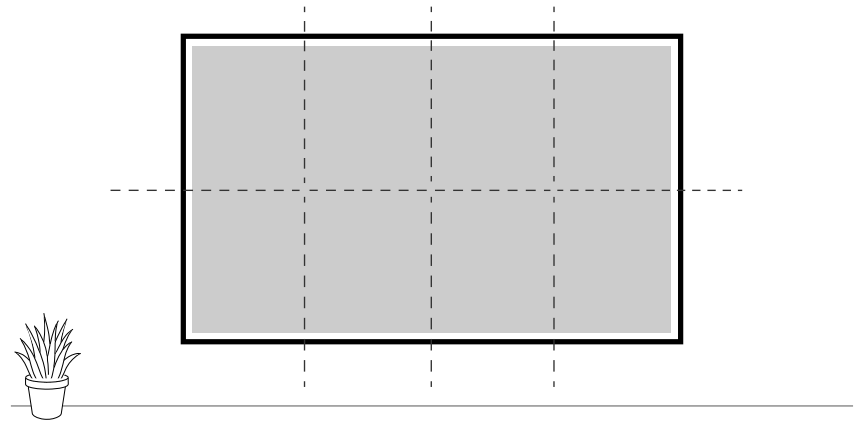

## CELL SIZE

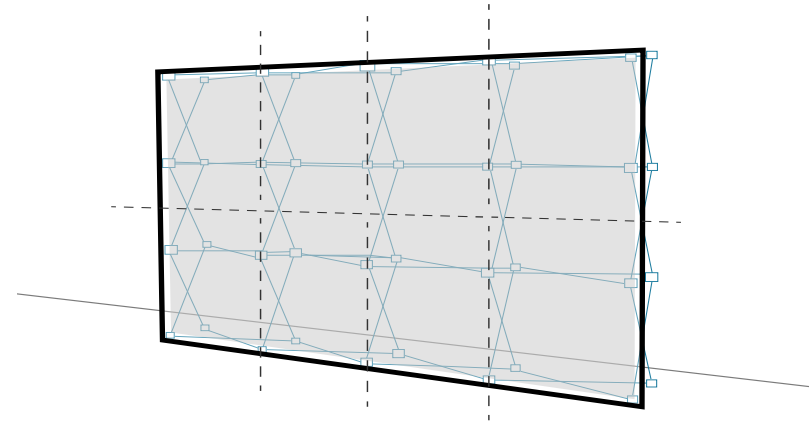

## Existing Wall

Any flat, pre-existing wall can be used to display the mosaic with help from 3M Command velcro strips or VHB adhesive. Perfect for semi-permanent or permanent installations, indoors and out.

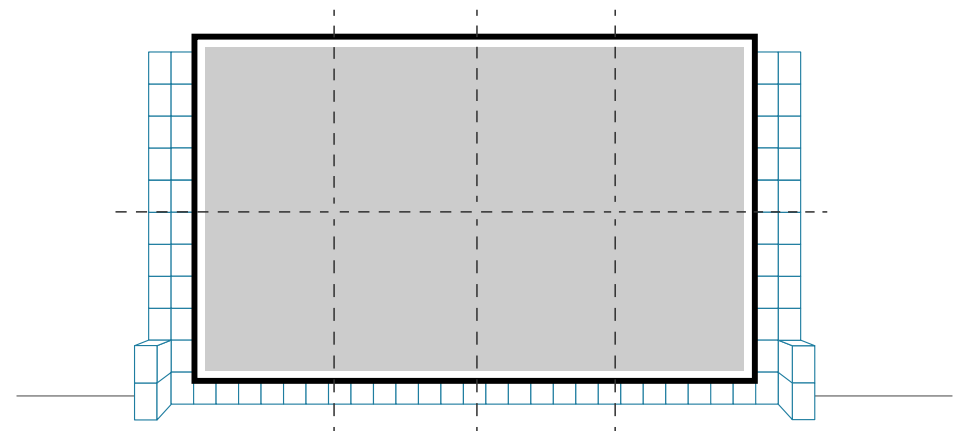

## Pop-up Accordion Wall

This tradeshow style pop-up wall allows for easy setup in indoors spaces. It is ultra-light and has been re-designed to have supports exactly where the mosaic grid panels align for easy mounting. Typical size: 117" x 88"

## Block Structure

Not a usable wall in sight? This sturdy structure uses interlocking blocks to create a brand new wall. Assembled on-site in about 45 minutes. Great for indoor and outdoor events when wind is less than 10 mph.

Live Print Mosaic Technology protected by U.S. Patent No. 10,957,014

## Gator Board (Best)

Tougher than standard foam core board - dent, bend, and crush resistant. Ultralight construction makes Gator Board easy to transport to your event. For larger mosaics, the backdrop is printed in panels and simply hung side by side. The grid surface is precision printed with row and column numbers for easy photo placement.

## Vinyl Banner

A single sheet of durable, 13 oz. matte vinyl. Just unroll it and start building your mosaic. Hanging is easy with grommets, pole pockets, or hemmed edges. The grid surface is precision printed with row and column numbers for easy photo placement.
