Built-In Backend Tools

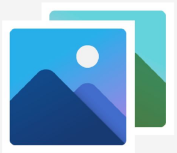
Submission Moderation Tool

Easy to use moderation flow with advanced features and Ai support to auto moderate (Google Vision). Filter, find, and review photos with ease.

Moderation options: Manual, Auto-approve, or Google Vision

Add/Remove/Edit Starter Photos

Easily upload and edit your starter photo library. Starter content can be kept in the mosaic, or removed once real content is submitted.



Language Editor

Customize the text throughout the submission flow and mosaic experience.

Download Data & Photos/Videos

Download individual submissions, along with a spreadsheet (csv) of all data collected.

Depending on the features of your mosaic, more tools will be available
